

The Company Profile

ABOUT THE COMPANY

TNT COMMUNICTIONS SDN BHD , a well-established Malaysian base company that completely involved with communications infrastructure in the multimedia age. In response to the constant changing world, the company has recently taken several serious efforts to further diversify its business into other arenas such as; information technology, CCTV surveillance system, computer networks system

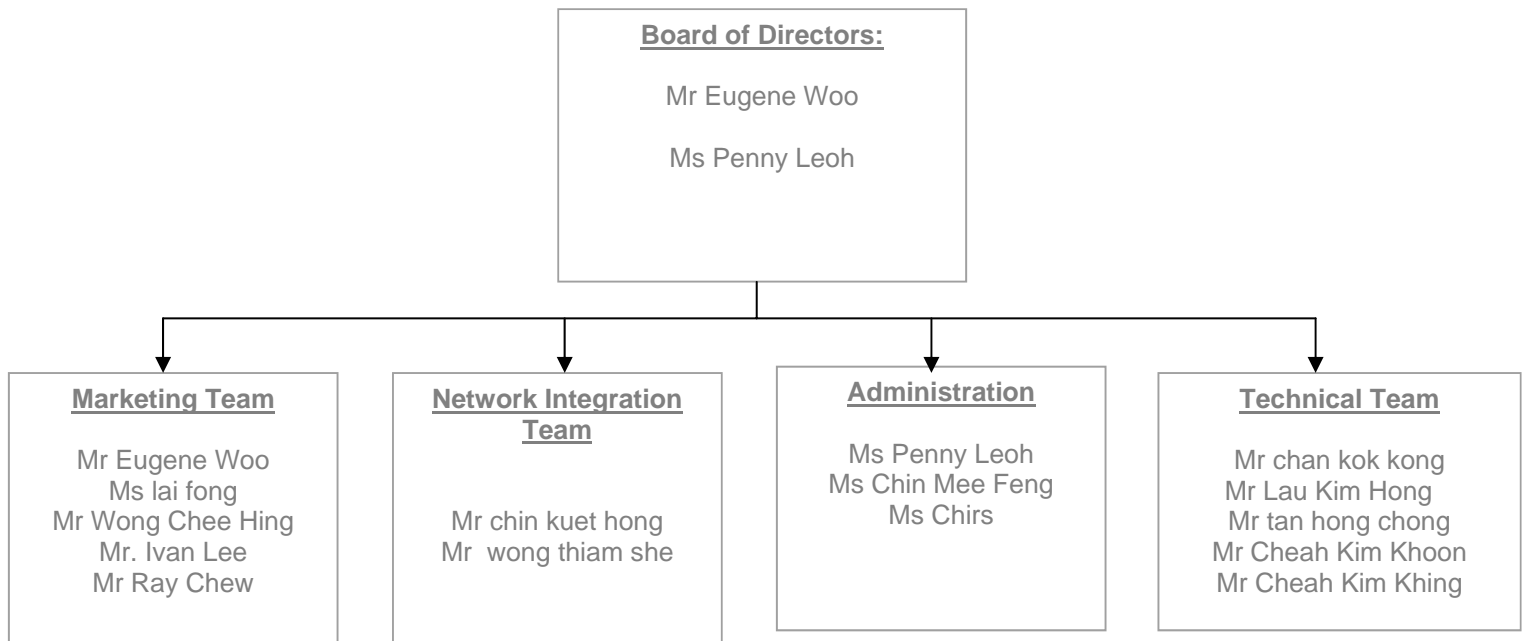

TNT COMMUNICATIONS SDN BHD was incorporated in 15 Nov 1996, with a consistent vision to be a one-stop complete solution provider in security system such as DVR (Digital Video Recording) surveillance system and Computer networking system. Our ultimate goal is to give our customers a peaceful mind in their day-to-day busy schedule knowing that their businesses, properties and love ones are well protected by our intelligent systems.

TNT COMMUNICATIONS SDN BHD, or hereinafter referred to as TNT, sets the goal to be a caring solution provider with heavy emphasis on both product quality and also the after-sales supports to its valued customers. We understand the importance of our system to your esteemed company and for that reason alone, TNT has appointed a technical team comprises of experienced technicians to attend and serve you in the shortest time possible. We are happy that you have chosen the right solution from TNT, and we would like to make sure you are getting the right service from us too.

With years of experience and intensive sourcing for best products in the region, TNT has successfully identified several products in the market that meets today's customer requirements. For the surveillance system, TNT has never changed its mind to set emphasis on picture quality, transmission speed, recording duration and last but not least, the price that you can afford.

We put the same attention and emphasis to the Computer Networking system too. Knowing that it is also part of the security system to your premises, we would like the proposed system to be user-friendly and hassle-free to your workers.
